SUMMARY

Senior backend engineer with 7+ years building production SaaS platforms, with deep specialization in payment integrations across Stripe, and mobile money systems. Architected and shipped microservices serving multi-region user bases across fintech, ticketing, dating, and e-learning verticals. Proven track record delivering remote across US, EU, and African time zones.

SKILLS

Backend: Node.js, Express, Python, Django, REST APIs, GraphQL, Microservices Architecture, Docker

Frontend: React, Next.js, React Native, Vue.js, TypeScript, Tailwind CSS

Infrastructure: AWS, Vercel, Firebase, Supabase, PostgreSQL, MongoDB, MySQL, Nginx, PM2

Payments & Fintech: Stripe, Fapshi, MTN/Orange Mobile Money, international remittance, multi-currency systems

Other: Jest, Git/GitHub, OpenAI & Anthropic APIs, technical leadership, code review

EXPERIENCE

Impact Factors (US) — *Software Engineer · Remote* Feb 2025 – Present

- Engineered and deployed 15+ backend microservices using Node.js and Docker, including article management, donations, user CRM, form builder, and notification systems.
- Designed production REST APIs with authentication, versioning, and backward compatibility consumed across multiple product lines.
- Led end-to-end feature development from design to deployment, collaborating with distributed engineering teams across time zones.
- Mentor junior developers through code reviews, enforcing best practices in distributed systems.

SaaS Simplified (Cameroon) — *Lead Engineer · Remote* 2018 – Present

- Founded and lead a software agency delivering production SaaS platforms across fintech, ticketing, e-commerce, and on-demand services.
- Built and launched internal SaaS products: Rezify (AI resume builder), HookVault (webhook testing), and SocketLab (WebSocket testing).
- Delivered 50+ client projects including payment gateway integrations, multi-tenant systems, and cloud infrastructure on AWS, Vercel, and Firebase.
- Architecting AI-powered features using OpenAI and Anthropic APIs for intelligent automation and content processing.

Primus Learning PLC (US) — *Software Engineer · Remote* Apr 2024 – Present

- Designed and built Nextransfer — a complete international money transfer platform with secure transfer flows and Stripe payment integration.
- Implemented a custom referral program with threshold-based reward logic to drive user acquisition.
- Currently leading development of additional fintech and education products on the platform.
- Owned full-stack development lifecycle independently, demonstrating autonomy in remote-first delivery.

Bliss Dating (Switzerland) — *Mobile Engineer · Remote* Sep 2024 – Present

- Led full-stack development of a React Native dating app connecting Africans in the diaspora; reached 1,000+ users within the first month of launch.
- Built cross-platform iOS and Android applications with native-like performance, published to the App Store.
- Engineered the admin panel for user management, content moderation, and platform operations.
- Manage ongoing maintenance, feature releases, and platform stability.

AECO (Cameroon) — *Software Engineer* Jan 2024 – Aug 2024

- Redesigned AECO Education and Saint Louis University of Cameroon digital infrastructure, increasing user engagement by 30%.
- Built CampusCamer — an automated multi-university student application processing platform.

Summit Tech (Cameroon) — *Software Engineer · Full-time* Jun 2021 – May 2024

- Designed and shipped Gilgal Towers hotel platform with integrated booking and admin console.
- Built RHIBMS school management system, reducing admission processing by several weeks with 100% budget calculation accuracy.
- Delivered restaurant management and e-commerce platforms driving 10–15% monthly revenue increases for clients.

EARLIER EXPERIENCE

Delivered contract engineering work for Wandaprep (Node.js backend with Stripe + real-time conferencing), Deonicode (e-learning marketplace), and Koree (multi-app admin panel with full unit test coverage). Earlier roles at Bridge Africa Ventures (multi-vendor e-commerce platform serving 7,500+ businesses) and Zotech (Gearbest e-commerce platform used in 200+ countries). Mentored 300+ developers as Software Development Mentor at Nervtek (2021).

EDUCATION

B.Sc. Computer Engineering, University of Buea, Cameroon Dec 2022
